Maziv Budget Instructions

FY2028

FY2028 Budget: Plan |One Process

1. Plan

- The FY2028 year of the Group ten-year plan is the budget target:
- **Set by:** Group, top-down for each entity.
- **Measures:** revenue growth, EBITDA, operating profit, headline earnings and capex.
- **Ownership:** entities budget inside the target and decide how they reach it.

2. Operating Leverage

- Each entity budget shows operating leverage against FY2027:
- **Margin expansion:** revenue grows faster (YoY) than operating costs.
- **Cost base:** operating costs grow slower (YoY)
  - Review key unit of economics :
  - Network volumes / capacity (homes passed, active connections or Links)
- **Headcount:** stays at FY2027 levels. Group reviews any increase and approves it only if it is tied to a strategic imperative.

3. Inputs

- Use the Group assumptions as issued. Do not change them in your submission:
  - **Source:** the Valuation – FY2027
- **Exceptions:** if an assumption does not fit your entity, tell Maziv Finance before you submit.
- **FX rate:** to be confirmed by Group.

4. Beyond |Target and Plan

- Submit spend outside the target as a separate strategic initiative, not in the base budget. Each initiative states:
- **Imperative:** the strategic imperative it serves.
- **Ask:** the capex and opex required.
- **Return:** incremental revenue or network volumes, and the payback period.

Overview | FY2028 Top-down Budget works

1. Set the envelope

Oct to Nov 2026

Group sets assumptions, FX rate and the revenue, EBITDA and capex envelope per entity.

2. Budget

Nov to Dec 2026

Strategy sessions on 11 and 12 Nov 2026.

First Submission: budget (the envelope) 30 Nov 2026

3. Build to envelope

Jan 2027

Entities build the detailed budget inside the envelope. Final submission on 21 Jan.

4. Close the gaps

Late Jan to Feb 2027

Maziv Finance reviews gaps. Entities resubmit only the items with gaps.

5. Approve

Feb to Mar 2027

Board budget presentation, then IC capex approval and Group budget approval.

Rules for entities

- The envelope is the target. You own how you reach it.
- Explain every gap to the envelope by driver: volume, price, cost and timing. Maziv to provide the template
- Spend outside the envelope goes in a separate strategic initiative submission.

What Group does

- Sets the envelope from the FY2027 forecast, the ten-year plan and the strategy sessions.
- Issues one template for the envelope reconciliation and the operating leverage schedule.
- Gives feedback on the first submission within six working days.

Maziv |Budget owners

Entity	Person responsible
Maziv consol	Zunaid Akoojee (ZA)
Maziv	Zunaid Akoojee (ZA)
Maziv PropCo	Zunaid Akoojee (ZA)
